Museum of Island History
Drawing Activity Sheet

Locate the display on dinosaurs discovered on the Isle of Wight coastline. **Design** you own dinosaur inspired by these and give it a creative **name.**

On your journey around the museum, find the rings, brooches and necklaces that people wore in the past. Taking inspiration from these draw your own item of jewellery.

Draw an interesting person, a local building or an inspiring object that you have seen during your visit.

Think about all the things you have discovered and draw a mascot for the Museum of Island History. Don't forget to name it and tell us about it.
